SUMMARY

Enthusiastic recent graduate with a Master's degree in Computer Applications and a strong foundation in machine learning techniques. Skilled in Python programming, data manipulation, and visualization using libraries such as Pandas, NumPy, and Matplotlib. Hands-on experience in building and evaluating machine learning models for classification and regression tasks. Passionate about uncovering insights from data and proficient in communicating findings effectively. Seeking opportunities to apply academic learnings and gain practical experience in the field of data science.
